

**Conference Date: June 14-15, 2025**

**International Conference on Chemical,  
Environment and Microbiology (CEM-2025)**

**Conference Topics**

- Chemical, Environment and Microbiology
- Chemical bonding, Food spoilage
- Electrochemistry, Climate Change
- Physical chemistry, Legislation
- Computational chemistry
- Environmental chemistry
- Ozone Layer Depletion
- Deforestation, Global Warming
- Overpopulation, Human Impact
- Environmental Justice
- Resource Management

**Hybrid Mode**

- Microbial ecology, Pollution
- Antimicrobial resistance
- Food microbiology, Ecosystems
- Virology, Bioremediation
- Biotechnology and synthetic biology, Sustainable Development
- Microbiomes, Viruses
- Public health microbiology
- Antibiotic resistance mechanisms
- Fungi, Biofilms, Immunology
- **All the topics related to Chemical, Environment and Microbiology**

**Email Id: [editor.iircr@gmail.com](mailto:editor.iircr@gmail.com)**

**Conference Website**  
<https://iircr.com/>

**IIRCR**  
Research | Communication | Recognition

**Publication Partner**
