

Conference Date: November 19-20, 2023

International Conference on Engineering and Technology (E & T-2023)

Conference Topics

- Engineering and Technology
- Solar power and inverters
- Electronics , Cloud Computing
- Robotics , Machine Learning
- Data Science and Analytics
- Computer Vision , Bioengineering
- Internet of Things , Mechanical
- Python Projects , Resilient Systems
- Autonomy Everywhere
- More and Better Big Data
- Old Industries Are New Again
- Process automation and

Hybrid Mode

- virtualization
- The future of connectivity
- Distributed infrastructure
- Next-generation computing
- Applied Artificial Intelligence (AI)
- Future of programming
- Next-generation materials
- Future of clean tech trends
- Genetic Engineering
- Android App Projects
- All the topics related to Engineering and Technology**
