

Conference Date: August 26-27, 2023

International Conference on MACHINE LEARNING AND IOT (ICBMI)

Conference Topics

- Machine Learning and IOT
- Deep learning, Algorithm
- Artificial neural network
- Artificial intelligence
- Natural language processing
- Support vector machine
- Decision-making
- Linear regression
- Random forest, Vector
- Naive Bayes classifier
- Cluster analysis
- Pattern recognition

Hybrid Mode

- Agriculture, Security, Architecture
- Automation, Management
- Transport, Smart city
- Artificial intelligence
- Wireless sensor network, Software
- Energy, Computer network
- Health, Communication
- Machine learning, Sensor
- Analytics, Retail, Air pollution
- Cloud computing, Face
- **All the topics related to Machine Learning and IOT**

Email Id: editor.iircr@gmail.com
