

Conference Date: October 07-08, 2023

International Conference on MEDICAL AND BIOLOGICAL ENGINEERING (ICMBE)

Conference Topics

Hybrid Mode

- Medical and Biological Engineering
- Epidemics versus pandemics
- Child health care
- Medical humanitarian missions in the developing world
- Homoeopathic medicines – the placebo effect, Neural engineering
- Vaccination – dangers versus benefits , Prosthetics
- Artificial tissues and organs
- Engineering DNA and Biomolecules
- Engineering Hosts and Data Science
- Impacts and Applications of Engineering Biology
- Tissue Engineering
- Transdermal Patches
- Wearable Devices
- Surgical devices and systems
- Systems to monitor vital signs
- Pharmaceutical engineering
- Clinical engineering
- Virtual Reality , Biomechanics
- All the topics related to Medical and Biological Engineering**
