

Conference Date: March 18-19, 2023

6th International Conference on RECENT ADVANCES IN SCIENCE, TECHNOLOGY AND ENGINEERING (ICRSTE)

Conference Topics

- Recent Advances In Science, Technology And Engineering
- Malaria vaccine for kids
- Launch of the James Webb Telescope, 3D Printing
- New findings on Mars
- New species of early humans
- Computing Power
- Smarter Devices
- Datafication, Digital Trust
- Artificial Intelligence
- Machine Learning

Hybrid Mode

- Extended Reality, Research Labs and Groups, Genomics
- Aerodynamics and Fluid Mechanics
- Combustion and Energy Systems
- Design and Manufacturing
- Dynamics and Control
- Materials and Structures
- Vibrations, Acoustics, Biomechanics
- Fluid-Structure Interaction
- **All the topics related to Recent Advances In Science, Technology And Engineering**
