

**Conference Date: October 07-08, 2023**

## **International Conference on SPACE SCIENCE AND TECHNOLOGY (ICSST)**

### Conference Topics

### Hybrid Mode

- Space Science and Technology
- Geothermal Energy
- Solar and space physics
- Solar system exploration
- Positioning, navigation, and timing
- Military and national security uses of space , Astrobiology
- Distributed infrastructure
- Next-generation computing
- Applied Artificial Intelligence (AI)
- Bio Revolution, Cryogenics
- Communication Satellite

- Navigation Satellite
- Earth Observation Satellite
- Weather Satellite
- Polar Sun-Synchronous Orbit
- Geosynchronous Orbits
- Geostationary Orbit
- Microgravity research
- Observing Earth
- Future of programming
- The future of connectivity
- All the topics related to Space Science and Technology**

**Email Id: [editor.iircr@gmail.com](mailto:editor.iircr@gmail.com)**
